

9 November 2016

Dear Gothenburg and the Swedish Exhibition and Congress Center / Gothia Towers,

On behalf of the Partners and the University participants we would like to thank you most sincerely for a most eventful visit to your city.

From the personalised meeting at the airport to the send-off, we were privileged to have your personal attention for the duration of our stay which you did over a holiday period. We appreciated the length you went to in order to make us fully comprehend the importance of our stay.

It was an honour to meet your Executive Mayor and senior officials in the Team that makes up the Gothenburg Meetings Industry. Going above and beyond you excelled in innovative ideas showing us that the support for your organisations is seriously extended to the medical industry. The medical device demonstrations we experienced were outstanding and brought home the significance of the medical industry to your city.

Gothia Towers was amazing. The three towers offered so much and opposite the theme park made it that much more interesting. Our rooms and the function space worked a treat and served our purposes to a tee. May I say how personally impressed I was with the functionality of my hotel room – it is a benchmark to be proud of. The Spa provided the opportunity to relax and enjoy expert massages then take a dip in a pool outside with snow falling and a view beneath through the glass to add to the enjoyment – a unique feature.

The tram, the external dinner and the special surprises as we toured the Convention Centre or saw our breakfast venue transformed into a delightful dinner space all delighted us no end. We covered off a lot of experiences, met a number of locals, worked hard in our business sessions and had an action packed wonderful two days in your fascinating city.

Please accept our gratitude for so much generous hospitality and our congratulations on providing such a smoothly run, insightful program for the INCON Partners and staff. After this visit we would be delighted to have you as a preferred supplier of INCON to cement our relations and work together to produce further business to your destination.

Your sincerely,

Roslyn McLeod, OAM
